FOUNDATION DEPENDENCY MAP

What stops if access stops

LEVEL	Operational
DURATION	1h30 - 3h
USE	Running an agent
TRACK	Toolkit

OBJECTIVE Know, before signing, what stops on the day the supplier stops. Most organisations discover at that point that one supplier carries the decision, its record and the means of stopping it.

1 THE FOUNDATION (← ACF-05)

MODEL AND TESTED VERSION

Name, number, acceptance date

COMPUTE AND HOSTING

Who runs it, where

SUPPLIER JURISDICTION

Country, parent company

CONTRACT EXPIRY

Date, revision clause

2 WHAT FALLS WITH IT · OURS OR THEIRS

THE DECISION

With us ☐ · with them ☐

THE RECORD OF THE DECISION (← ACF-09)

With us ☐ · with them ☐

THE MEANS OF STOPPING (← ACF-07)

With us ☐ · with them ☐

3 THE NOTICE WE ACTUALLY HAVE

BY LAW

Requisition: no notice

BY CONTRACT

Expiry, revision

BY OUTAGE

Service commitment

BY UPDATE

Announced delay, often none

> One supplier carrying all three is no longer a contract, it is a dependency.
